REMARKS

Claims 1-2, 4-5, 8-10, 14-16, 18 and 21 have been amended herein to further emphasize aspects of the applicants' claimed invention. Applicants' representative thanks the Examiner for the courtesies extended during the telephonic interview of February 7, 2005, where it was agreed that Sarkar (U.S. 6,012,067) is directed to an invention that is not analogous to the applicants' disclosed invention. The Examiner concluded that the claim language set forth in the parent case would distinguish from the cited reference if further clarified to emphasize aspects of the applicants' invention thereby distinguishing from Sarkar. More particularly, the Examiner suggested that the claims be amended to emphasize aspects of the development tool and the application thereof as well as to clarify the type descriptor language recited in the claims. In accordance thereto, independent claims 1, 8, 14, 16, 18 and 21 have been amended herein.

A current version of all pending claims is found at pages 2-6. Favorable reconsideration of the subject patent application is respectfully requested in view of the comments and amendments herein.
